DETAILED ACTION

Allowable Subject Matter

1. Claims 12-41 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 12 is allowed because the closest prior art, Tsutsui et al (US 6385181 B1), and Reudink (US 5563610), either singularly or in combination, fail to anticipate or render obvious that signal transmission circuitry providing M orthogonal renditions of a first signal, wherein said signal transmission circuitry is coupled to said M spaced apart antenna elements to provide a different one of said M orthogonal renditions of said first signal to each of said M spaced apart antenna elements for radiation in said transmit signal path, in combination with all other limitations in the claim(s) as defined by applicant.

Claims 13-41 depend on claim 12. Therefore, they are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
